

Unique play attractions for schools and public places throughout the UK

CASE STUDY

BEDALES SCHOOL (DUNANNIE)

Location: Hampshire
Budget: £35,000
Installed: June 2021

We were delighted to be invited back by Bedales School to design a play space for their lower school children (3-8 years) to replace their old climbing. The children absolutely love their new 'treehouse' central tower with connecting bridges and platforms. The climbing structure also features colourful windows, a wobbly ladder, a fireman's pole and a clamber net. It truly has transformed their old play space!
