

Unique play attractions for schools and public places throughout the UK

CASE STUDY

DEPTFORD PARK PLAY CLUB

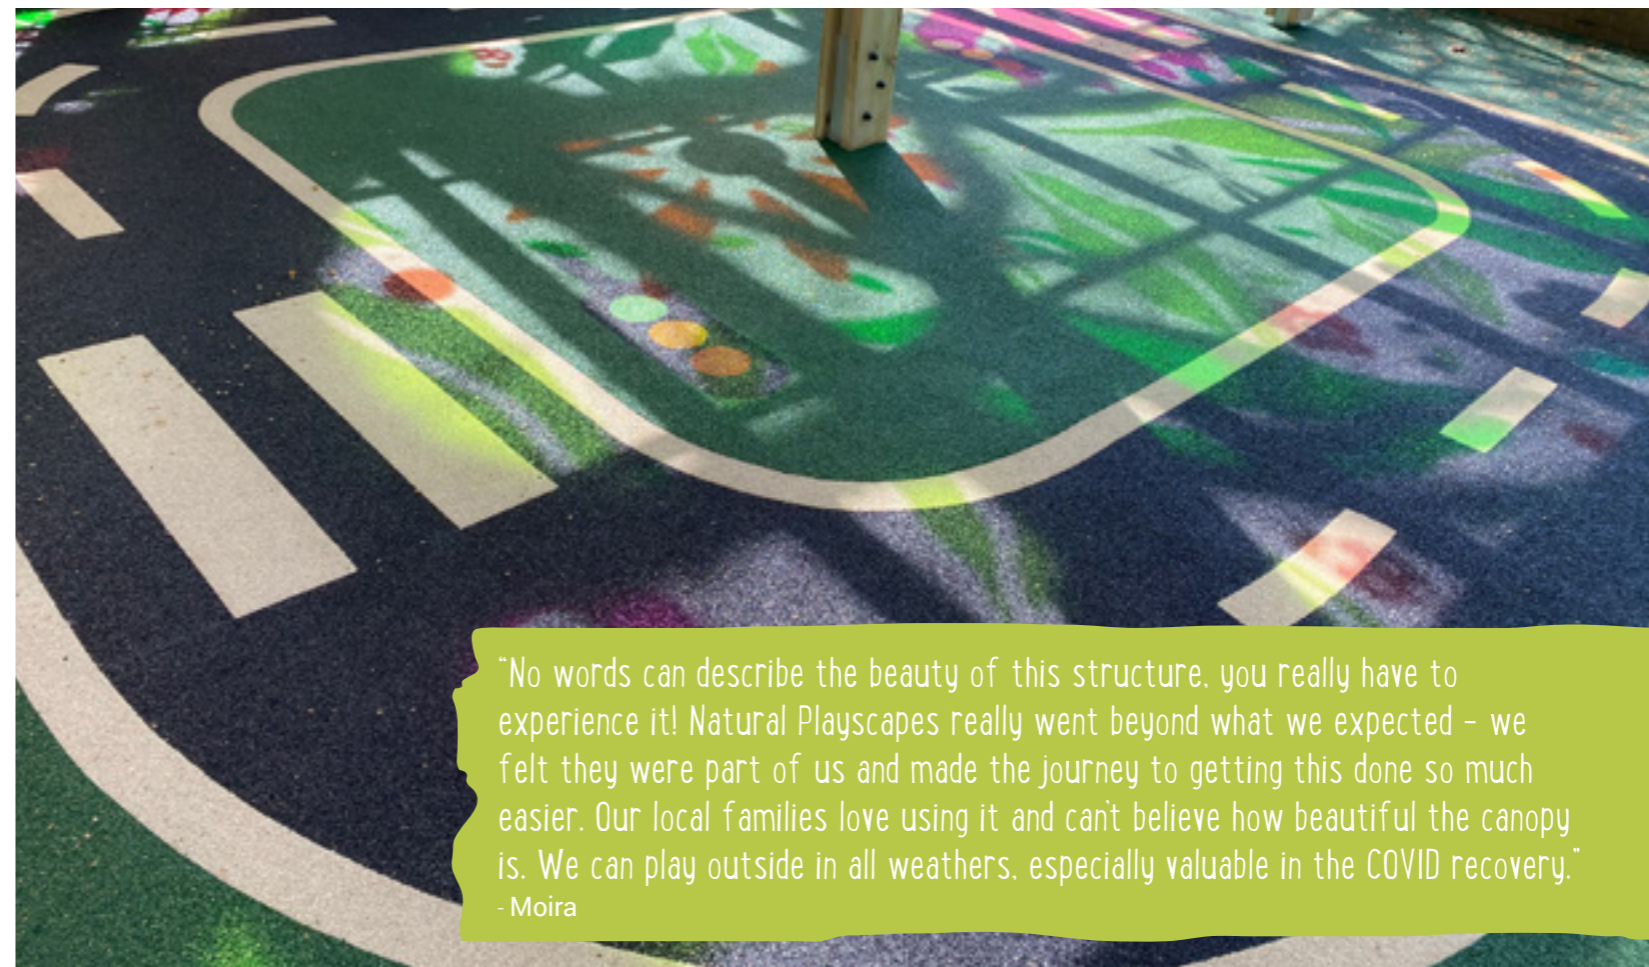

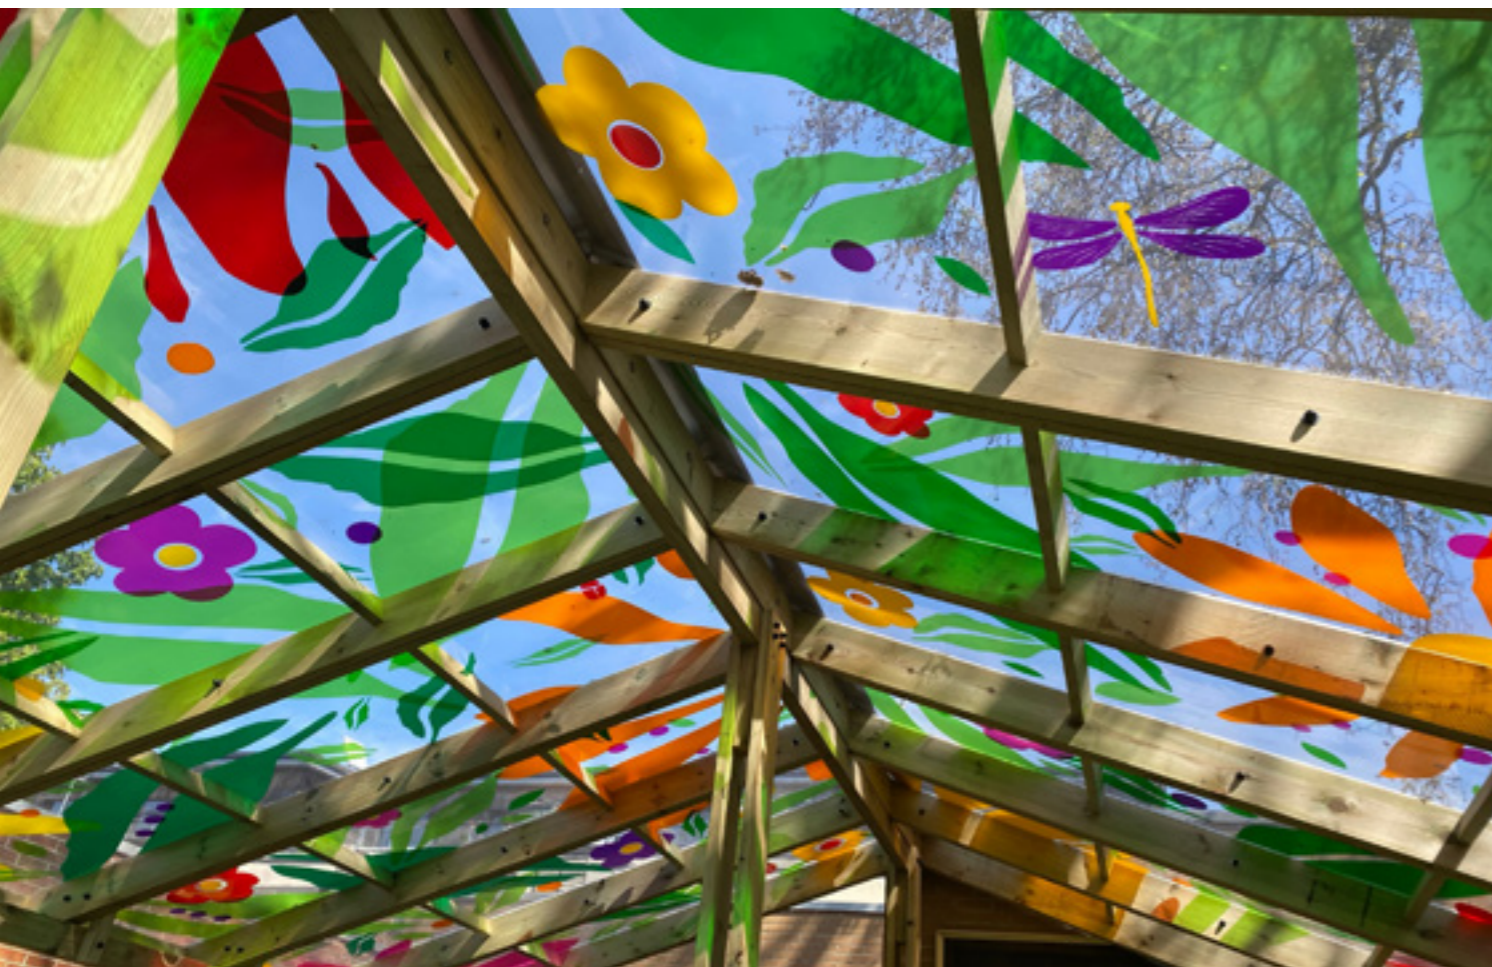

Location: London
Budget: £45,000
Installed: March 2021

We worked closely with Deptford Park Play Club to install a large colourful canopy in their playground. The apex canopy casts beautiful shadows on the playground markings below, encouraging the children to think imaginatively and creatively.

Integrated bench seating also runs around the edge for children to sit and admire the colourful patterns above.

Under the canopy we the bike track markings add an exciting feature and mean that the covered area gets a lot of use with multiple features.

"No words can describe the beauty of this structure. you really have to experience it! Natural Playscapes really went beyond what we expected - we felt they were part of us and made the journey to getting this done so much easier. Our local families love using it and can't believe how beautiful the canopy is. We can play outside in all weathers, especially valuable in the COVID recovery."
