

Unique play attractions for schools and public places throughout the UK

CASE STUDY

PLATT PRIMARY SCHOOL

Location: Sevenoaks
Budget: £30,000
Installed: September 2021

Platt Primary School asked us to design and install an interactive play space for their children. We installed a variety of different areas for interactive play, including a stage with colourful peep holes, shadow boards and a mirror. There are also options for open ended play with the den building kit in play chip, mud kitchen and pebble pit areas.

The friendship circle seating and canopy branch den provide quieter areas for children to socialise whilst also sparking their imagination with the canopy panels. The canopy panels cast colourful shadows on to the decked base below and the mirror in the branch den also offers entertainment for the children as well as reflecting the colourful canopy panels from above.
