Unique play attractions for schools and public places throughout the UK

CASE STUDY

ST JOHN HENRY NEWMAN PHASE 2

Location: Peterborough
Budget: £40,000
Installed: June 2023

Having worked with St John Henry Newman previously in the summer of 2022, we were absolutely delighted to be invited back to work on their second play area for the reception children. Being a brand new school we were starting with a blank canvas.

The brief was to create an engaging space for the younger children to enjoy, that would help them develop their gross motor skills, imagination and in which to be creative and explore through messy play. Our design included a cycle track, scramble climber with acrobatic bars, mud kitchen with pulleys, a cosy den, cycle shelter and quiet seating spaces, this created wonderful zones and offered something for all of the children to enjoy.

"The playground is AMAZING! we are so happy with it and the families keep saying they are so lucky that their children have access to these spaces."
- Mark Cooper, Headteacher
